Everybody knows by now that at the last town council meeting the Citizens' Association was authorized to proceed with clean-up and alterations necessary to put the "Chicken Coop" at the Baie d’Urfe Barns (until recently known as the Bins Barns) into shape for use as a meeting hall. The work was started last Sunday, November 7th, by an odd crew from Bayview, Sunny Acres and Oakridge. The "Chicken Coop" was cleaned out and the initial attack was made on getting the whitewash cleaned off the walls. We’ll go after the whitewash again this Sunday with a crew from Morgan Road and Lakeview.

Harry Dixon - Chairman of the Building Committee is doing all the general organization and is the real driver behind the program. His committee consists of the following:

- Ted Pilkey
- John Fisher
- Mary Colter
- Frank Booth
- Bob Higman
- John Windebank

Bob Higman - In charge of the building work (call him Superintendent if you like), has the job of organizing the work crews and getting the actual work accomplished.

Ken Millar - Deputy Superintendent, is assisting Bob in keeping the crews and work going.

The town has been divided up into six districts and a schedule has been established for each district to provide work crews. The district has a captain who is responsible to get the work crew out on the designated day. These captains are as follows:

Fred Ritchie, 39 St. Andrews
College Green
Phone: 2039

Cam Scott, 86 Somerset
Bayview
Phone: 4173
COOPS COOP

Bob Fowler, Morgan Road
79 Morgan Rd. Phone: 2682

Clary McGuire, Lakeview
20341 Lakeshore Rd. Phone: 2004

John Fisher, Sunny Acres
20 Sunny Acres Phone: 2819

Lawrence Marshall, OakRidge
7 Applehill Phone: 4687

WORK SCHEDULES-OH BOY

The schedule of work assignments is as follows:

</table>

These work parties will be doing the clean-up, painting, insulating and general handy work.

Let the team captain of your district know when you are available to work. Also, if you have time on a day other than that for your district, your presence will always be welcome.

CALLING ALL CRAFTSMEN

Besides the regular work crews, we will need some special talents and we would like any volunteers to come forth.

Someone with good ideas for interior decorating, that don't cost too much, that would be willing to get a committee together and really make the place look hot would be a big help.
We need some good carpenters that will take on specific jobs and get them completed.

There is some simple electrical work to do. Have we got a good handyman available for this job?

There's a heating stove to go in, you know; put up the stove pipe, hook up a couple oil drums and get it going.

We can also use some of the gals to bring up the coffee pot and sweets to keep the boys' spirits up.

If you want to volunteer for any of these jobs or have any good suggestions for making our new home better, give Bob Higman at 4682 or Ken Millar at 2377 a ring.

**MATERIALS—HOW ABOUT A DEAL?**

Harry Dixon has managed to get a good quantity of paint materials and a couple electric heaters, (to keep the plumbing from freezing), donated by the Monsanto Company. We are going to need some other materials and are, of course, looking for the best offering. At the moment, these are as follows:

1 large or 2 medium size oil space heaters.

3000 sq. ft. of 3" insulation.

800 sq. ft. of 1/4" plywood or masonite.

Several hundred lineal feet each of 1 x 3, 2 x 3, and 2 x 4.

1 good heavy duty thermostat.

1 small fuse box (single circuit 30 amp.).

50 ft. 2 #12 Loomex or B-X.

6 ceiling light fixtures.

12 storm windows 31" x 34".
LETS ALL GET BEHIND THE JOB AND
MAKE IT EASY FOR EVERYBODY.

COME ON DOWN AND SEE US SUNDAY — THERE MAY
EVEN BE SOME COFFEE LEFT.

THE COMMITTEE.
